PROFESSIONAL SUMMARY

AI Automation & Integrations Analyst with end-to-end experience turning operational processes into automations and internal systems. I administer a self-hosted n8n environment with 10,000+ workflow executions in production and build and support solutions with Python, FastAPI, REST APIs, PostgreSQL, Docker and generative AI, from requirements discovery through deployment, monitoring, training and continuous improvement.

TECHNICAL SKILLS

Automation, integrations and processes: self-hosted n8n, Python, REST APIs, webhooks, JSON/JSON Schema, OAuth 2.0, SQL/PostgreSQL, AS-IS/TO-BE, requirements, business rules, traceability, auditing, quality/compliance and documentation.

Applied AI: OpenAI, Gemini and Ollama, LLM APIs, prompt engineering, RAG/grounding with LangChain, context retrieval, structured outputs and human-in-the-loop review.

Engineering and reliability: FastAPI, JavaScript/TypeScript, Docker, Linux, Git/GitHub Actions, automated tests, monitoring, logs, retries, idempotency, alerts, backups and secrets management.

PROFESSIONAL EXPERIENCE

GRUPO VESPER

12/2025 - Present

Vesper Equipamentos EX e Vent Rio Equipamentos

Junior Process Automation Technician (formal title) | automation, applied AI and integrations

- Administer a self-hosted n8n environment on Windows/Docker with 10,000+ workflow executions in production, integrating REST APIs, webhooks, PostgreSQL and SMTP with monitoring, logs, retries, alerts, backups and auditing.

- Developed Proposta Comercial with ODT/PDF, IMAP/SMTP, human review and traceability; simple proposals went from 2-4 minutes to under 30 seconds and are used daily by 4 professionals.

- Deployed Produção Operacional to 10+ workstations and 1 factory TV, supporting 20+ professionals across 9 production areas, plus a maintenance solution covering 40+ assets with checklists, evidence, history and traceability used by Maintenance and Quality.

- Gather requirements directly with users, Production, Quality and management in an industrial environment with quality/Ex requirements, turning spreadsheet, paper and network-folder routines into digital processes with approvals, versioning and auditability; trained/guided 30+ people.

COMPASS UOL

10/2024 - 03/2025

Data Engineering Intern | Scholarship Program

- Completed 10 practical sprints with Linux, Git, Python, SQL and Docker and built an AWS ETL/Data Lake pipeline: CSV/TMDB API, S3, Lambda/boto3, Glue/PySpark, Parquet, Raw/Trusted/Refined layers, Athena and QuickSight.

SELECTED PROJECTS

- **Mala Direta:** 6 campaigns over a 1,020-contact base, including one with 900+ recipients; n8n, queues, 158 nodes in the main workflow, 9 Data Tables, deduplication, test send, revalidated cancellation and auditing.

- **CarreiraPessoal:** local-first personal product used in my own job search, built with FastAPI, React/TypeScript, Tauri/Rust and SQLite/FTS5; Career Goal Gate, EvidenceGuard, Resume Router and 102 ATS families recognized; v12.5.2 validated with 283 Python tests.

- **Central ISO:** technical pilot based on Quality requirements to track documents, certificates and nonconformities; FastAPI, n8n, Docker, deterministic rules, SHA-256, read-only access and automated tests.

- **Postagem Redes:** RAG/grounding with LangChain, Supabase and n8n/Docker to reduce hallucinations, integrated with Meta Graph API and LLMs with human approval; channels exercised in testing.

EDUCATION

Technology Degree (Tecnólogo) in Systems Analysis and Development - UNISUAM | expected completion: Dec. 2026

42 Rio Piscine | intensive Linux/C program completed in Jul. 2025

CERTIFICATIONS

AI Tools: Agents and Automations - FIRJAN SENAI (40h); Google AI Essentials - Google/Coursera; Process Automation with RPA - ENAP (25h); Process Mapping and Automation - ENAP (20h).

LANGUAGES

Portuguese: native | English: independent technical reading; basic writing and conversation.
