

MAYCON FERREIRA

AI, AUTOMATION & INTEGRATIONS ANALYST

Rio de Janeiro, Brazil · +55 (21) 96481-0480 · mayconxz00dev@gmail.com · linkedin.com/in/maycon-ferreira-7bb870231/ · github.com/Mayconxzdev · mayconxzdev.github.io

PROFESSIONAL SUMMARY

Automation, AI & Integrations Analyst. I turn operational processes into automations and internal systems, from discovery and requirements through deployment and support. I administer a self-hosted n8n environment with 10k+ production workflow executions and work with Python, FastAPI, REST APIs, PostgreSQL, Docker and applied AI.

CORE SKILLS

Core: self-hosted n8n · Python · FastAPI · REST APIs/webhooks · JSON/JSON Schema · OAuth 2.0 · SQL/PostgreSQL · Docker

Process & automation: BPMN · AS-IS/TO-BE · requirements · business rules · Power Automate · Make/Zapier · CRM · traceability · documentation

Applied AI & engineering: OpenAI · Gemini · Ollama · RAG/LangChain · MCP · LangGraph/CrewAI · human-in-the-loop · JavaScript/TypeScript · Linux · Git/GitHub Actions · testing · monitoring · logs · retries · idempotency · alerts · backups

EXPERIENCE

GRUPO VESPER — Junior Process Automation Technician | Dec. 2025 – Present

Vesper Equipamentos EX / Vent Rio · automation, applied AI, integrations and internal systems

- **n8n:** administer self-hosted Windows/Docker environment with 10k+ production workflow executions, integrating APIs, webhooks, PostgreSQL and SMTP with logs, retries, alerts, backups and auditability.
- **Commercial Proposals:** built and support an ODT/PDF + IMAP/SMTP workflow with human review; simple proposals went from 2–4 min to <30 sec and are used daily by 4 professionals.
- **Production & maintenance:** deployed Production Operations to 10+ PCs and 1 TV supporting 20+ professionals across 9 sectors; digitized maintenance for 40+ assets with checklists, evidence, history and Quality visibility.
- **Process & adoption:** gather requirements and map AS-IS/TO-BE/BPMN with users, Production, Quality and management; use n8n, Power Automate, Make/Zapier and CRM depending on context. Trained/guided 30+ people.

COMPASS UOL — IT/Data Intern | Oct. 2024 – Mar. 2025

Data Engineering scholarship · 10 practical sprints

- Built a Python/SQL/Docker/AWS pipeline: CSV/TMDB API → S3 → Lambda/boto3 → Glue/PySpark → Raw/Trusted/Refined Parquet → Athena → QuickSight; practiced Linux, Git, ETL/Data Lake and data modeling.

SELECTED PROJECTS

- **Direct Mail:** 6 campaigns over a 1,020-contact base, one with 900+ recipients; 2 n8n workflows, main flow with 158 nodes and 9 Data Tables, queues, deduplication, cancellation and auditing.
- **CarreiraPessoal:** personal Windows product (FastAPI + React/TS + Tauri/Rust) for job discovery, deduplication, career-goal checks, evidence and resume routing; v12.5.2 with 283 passing Python tests.
- **Operational Catalog:** FastAPI + SQLite FTS5, 24 categories and 480+ codes, search without knowing item codes, price review/history, backups and daily use.
- **Social Publishing:** n8n + Meta Graph + OpenAI/Gemini/Ollama, RAG/grounding with LangChain, human review and idempotency; Facebook/Instagram validated in testing.

EDUCATION

Systems Analysis and Development — UNISUAM · expected Dec. 2026

42 Rio Piscine · intensive Linux/C program · completed Jul. 2025

COURSES & CREDENTIALS

FIRJAN SENAI — AI Agents & Automations (40h) · Google AI Essentials · ENAP RPA (25h) · ENAP Process Mapping & Automation (20h)

LANGUAGES

Portuguese: native · English: independent technical reading; basic writing and conversation
