

MAYCON FERREIRA

AI, AUTOMATION & INTEGRATIONS ANALYST

Rio de Janeiro, Brazil · +55 (21) 96481-0480 · [Email](#) · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Automation, AI & Integrations Analyst working end-to-end across process automation, APIs and internal systems. I administer a self-hosted n8n environment with 10k+ production workflow executions and turn operational needs into solutions with Python, FastAPI, SQL/PostgreSQL and applied AI, from AS-IS/TO-BE mapping and requirements through deployment, training and support.

CORE SKILLS

Automation & integrations: self-hosted n8n · Python · FastAPI · REST APIs/webhooks · OAuth 2.0 · SQL/PostgreSQL · Docker · Power Automate · Make/Zapier · CRM

Process & delivery: BPMN · AS-IS/TO-BE · requirements discovery · business rules · testing/UAT · documentation · deployment · training · continuous improvement

Applied AI & engineering: generative AI · RAG/grounding · AI agents · human-in-the-loop · JavaScript/TypeScript · Linux · Git/GitHub Actions · CI/CD · testing · logs/monitoring · retries · idempotency · alerts · backups

EXPERIENCE

GRUPO VESPER — Junior Process Automation Technician | Dec. 2025 – Present

Vesper Equipamentos EX / Vent Rio · automation, applied AI, integrations and internal systems

- **n8n & integrations:** administer a self-hosted Windows/Docker environment with 10k+ production workflow executions, integrating APIs, webhooks, PostgreSQL and SMTP with logs, retries, alerts, backups and auditability.
- **Commercial Proposals:** built and support an ODT/PDF + IMAP/SMTP workflow with human review; simple proposals went from 2–4 min to <30 sec and are used daily by 4 professionals.
- **Production & maintenance:** deployed Production Operations to 10+ PCs and 1 TV supporting 20+ professionals across 9 sectors; digitized maintenance for 40+ assets with checklists, evidence, history and Quality visibility.
- **HelpDesk & adoption:** internal system used by 11 people; gather requirements, map AS-IS/TO-BE/BPMN, test/UAT and deploy solutions with users and management; trained/guided 30+ people and follow support and continuous improvement.

COMPASS UOL — IT/Data Intern | Oct. 2024 – Mar. 2025

Data Engineering scholarship · 10 practical sprints

- Built a Python/SQL/Docker/AWS pipeline: CSV/TMDB API → S3 → Lambda/boto3 → Glue/PySpark → Raw/Trusted/Refined Parquet → Athena → QuickSight; practiced Linux, Git, ETL/Data Lake and data modeling.

SELECTED PROJECTS

- **Direct Mail:** 6 campaigns over a 1,020-contact base, one with 900+ recipients; 2 n8n workflows, main flow with 158 nodes and 9 Data Tables, queues, deduplication, cancellation, retry and auditing.
- **CarreiraPessoal:** personal Windows product in active personal use (FastAPI + React/TS + Tauri/Rust) for job discovery, deduplication, career-goal checks, evidence and resume routing; v12.5.2 with 283 passing Python tests.
- **Operational Catalog:** FastAPI + SQLite FTS5, 24 categories and 480+ codes, unified search, revision control, price history, backups and daily use.
- **Social Publishing:** n8n + Meta Graph + optional AI (OpenAI/Gemini/Ollama), RAG/grounding with LangChain, human review, idempotency and per-channel failure isolation; Facebook/Instagram validated in testing.

EDUCATION

Systems Analysis and Development — UNISUAM · expected Dec. 2026

42 Rio Piscine · intensive Linux/C program · completed Jul. 2025

COURSES & CREDENTIALS

FIRJAN SENAI — AI Agents & Automations (40h) · Google AI Essentials · ENAP RPA (25h) · ENAP Process Mapping & Automation (20h)

LANGUAGES

Portuguese: native · English: independent technical reading; basic writing and conversation
