PROFESSIONAL SUMMARY

Automation, applied AI and integrations professional working end to end on internal systems: process mapping, requirements, architecture, development, deployment, training, monitoring and support. Experience with self-hosted n8n, Python, REST APIs, databases and workflows with human approval, queues, idempotency, auditing and failure handling.

CORE COMPETENCIES

Automation and processes: self-hosted n8n, workflows, low-code, AS-IS/TO-BE, requirements, business rules, documentation, training and human approval.

Applied AI: OpenAI, Gemini, Ollama and OpenRouter; assistants and agents with tools, memory, context retrieval, structured output, fallback and human review.

Integrations: REST APIs, webhooks, HTTP/JSON, OAuth 2.0, SMTP/IMAP, Meta Graph API, Evolution API/WPPConnect, Supabase, Firebase and Postman.

Engineering and reliability: Python, JavaScript/TypeScript, FastAPI, SQL, PostgreSQL, SQLite, Docker, Git/GitHub Actions, tests, logs, backups, alerts, retries, idempotency and secrets management.

PROFESSIONAL EXPERIENCE

GRUPO VESPER - VESPER EQUIPAMENTOS EX AND VENT RIO EQUIPAMENTOS

Dec. 2025 - Present

Junior Process Automation Technician (formal job title) | automation, applied AI and integrations

- Lead the technical lifecycle of internal solutions: discovery with management and users, rules, architecture, development, testing, deployment, documentation, training and support.
- Administer self-hosted n8n automations in Windows/Docker with APIs, webhooks, persistence, backups, alerts, retries, auditing and diagnosis.
- Developed Vesper Propostas with ODT/PDF generation, IMAP/SMTP and human review; the case documents an observed reduction in simple-proposal time.
- Implemented HelpDesk, Produção Operacional, ProcureFlow, ComprasVesper, Mala Direta and Postagem Redes for IT, production, purchasing and communication routines, with declared operational limits.

COMPASSO TECNOLOGIA LTDA

Oct. 2024 - Mar. 2025

IT/Data Intern

- Automated a Python/Pandas routine, reducing observed processing time from approximately three hours to around five minutes; also worked with AWS S3/EC2, boto3, Pandas/Polars, SQL, Docker, support and documentation.

EVIDENCE, EDUCATION & CERTIFICATIONS

Portfolio: public and sanitized case studies with architecture, screenshots, tests and CI for n8n automation, integrations, desktop apps, PWA and internal systems.

Education: Associate Degree in Systems Analysis and Development - UNISUAM | expected completion: Dec. 2026. 42 Rio Piscine completed in Jul. 2025.

Certifications: AI Tools: Agents and Automations - FIRJAN SENAI (40h); Google AI Essentials - Google/Coursera; Process Automation by RPA - ENAP (25h); Process Mapping and Automation - ENAP (20h); LGPD - ENAP (10h).

Languages and availability: technical English for reading; basic writing and conversation. Available for remote, hybrid or on-site work; travel and relocation.
